Life Science Academy is the EasyB's business unit dealing with technical and scientific trainings and conferences for professionals involved in the discovery, development, and life cycle management of pharmaceuticals, medical devices, and related medical products.

LS Academy, with its experience, provides a complete range of quality services dedicated to the pharmaceutical and CRO industry.

Our conferences have a strong scientific content, guaranteed by independent scientific boards. Our exhibitor packages range from € 2.500 to € 6.000. Please get in contact with us to receive detailed events leaflet for more information on topics, audience and sponsorship packages.

Pharmacovigilance Day brings together safety experts from the pharmaceutical and healthcare industry: pharma and medical devices companies, biotechs, government agencies, academic research. The aim is to discuss themes of great relevance around Drug Safety and Pharmacovigilance environment.

2020 Annual Meetings:

**ePHARMA DAY**

**Italian ePharma Day Virtual**
*Online*
20 May 2020

The ePharma Day is an initiative that aims to provide discussion-events in various European countries concerning issues related to quality compliance as well as with rules, regulation and management of clinical research and drug development with the objective of bringing people together with different perspectives and function to share common winning strategies and tools that can be applied across the pharmaceutical industry.

2020 Annual Meetings:

**epi forum**

**10th European Epidemiological Forum Virtual**
*Online*
6 October 2020

European Epidemiological Forum is an international event with the aim to share knowledge on clinical observational research that has become an essential tool in the health care development processes.
**Patients** remain the most valuable asset in clinical development. Involving patients, their families, their associations/advocacy groups and their caregivers in clinical projects has proven to be very beneficial for all stakeholders involved. Contributions from patients have resulted in the conceptualization of clinical trials with patient-friendly aspects built into trial design. Collaborating with communities on local and regional levels may definitely help both funding, planning, recruitment and retention.

---

**European Statistical Forum (ESForum)** is an international event that aims to face statistical topics focusing on the most advanced methodological, regulatory and operational characteristics to support the drug and medical devices development.
**2020 Annual Meetings:**

**2nd MedDev Day Virtual**

*Online*  
*22 September 2020*

**MedDev Day** is an annual initiative addressing the important changes and updates in the field of Medical Devices from a wide range perspective. The conference aims at promoting the exchange of expertise, bringing together quality, regulatory, clinical development and other players coming from Medical Devices, Pharma companies, CROs, Regulatory Authorities and Academia to share winning strategies, best practices and examples.

*LS Academy is pleased to present its 2nd Annual Meeting in 2020.*
